CGLO/EPLO report to FEMA JFO, Austin, TX

20SEP2017

OVERVIEW/FUTRUE OPS:

- 1) The (ESF-10) Unified Command (UC) is supported by three operational branches: Alpha Branch in Corpus Christi, Bravo Branch in Houston and Charlie Branch in Port Arthur.
- 2) Continuing Hazard Assessment (HA) response and removal of orphan containers and vessels; observing Responsible Parties (RPs) & vessel owners working with their insurance companies to remove their vessels, pollution related concerns and hazards to navigation.
- 3) New EPA Representative supporting ESF-10 for Emergency Services is on board Mr. Gary Miller.
- 4) Current USCG personnel assigned as of 20SEP17: Total = 104
- 5) TOTAL VESSELS: As of 20SEP17 (248 open & 378 closed) = 626 targets have been identified as vessels (commercial and recreational).
- 6) There are 15 Staging Areas (04-Alpha, 08-Bravo, & 03-Charlie) have been identified for vessel removal (post pollution mitigation; transfer point from USCG to TGLO). Vessel removal operations will begin as soon as the staging areas are secured. Currently TGLO is still vetting out the logistics and legalities of the identified staging areas. Once TGLO completes the vetting process, vessel removal will begin. Closed vessels numbers are decreasing due to vessel owners responding to their property.
- 7) The CG will continue to work with the EPA to support ESF-10 mission.
- 8) TGLO submitted an amendment to the current ESF-10 MA for an additional \$20M to the new total being \$40M to expire on December 21, 2017. Awaiting FEMA approval.

Regards,

CGLO/EPLOs to FEMA JFO, Austin, TX
